WORK EXPERIENCE

HEB   **San Antonio**
Overnight stocker   *August 2021- Present*
- Work in a team of ~20 to efficiently stock 20-40 pallets of merchandise into designated departments, maintaining a pace of 60/boxes per hour.https://github.com/Youspeakcubic/Re
- Maintain cleanliness and order in aisles and backroom by blocking 3-4 aisles a night, This also includes making bales and organizing pallets to maintain space in receiving.

Walmart   **San Antonio**
Cap2 Associate   *June 2020-August 2021*
- Work in a team of ~20 to efficiently stock 20-40 pallets of merchandise into designated departments, maintaining a pace of 60/boxes per hour.
- Trained 4 employees on standard procedure over the course of two weeks. This included stocking procedure, making bales, and logging back stock in the database.
- Unloaded 2-3 trucks of at least 500 box count to receiving on a daily basis.

PROGRAMMING EXPERIENCE

ParetOS   **Github   Live**
Open source application
- Assisted in an open source project with a team of ~10 on a web application meant to help new developers connect and expand their knowledge by building accountable habits and streaks.
- Primarily helped in making the site more responsive to other viewports by fixing issues with mobile and tablet layouts, specifically reworking the navbar and other small user experience issues.

React ScoreBoard   **Github   Live**
Personal Project
- A scoreboard built using react and specifically state management to track multiple players and their scores. Allows for deletion and addition of players, and adding or subtracting points from each player respectively.
